ProofLens — Evidence-Driven Investigation Dossier

Case: Altered Salary & Native/Rendered Disagreement — Vikram Deshmukh | Subject: Vikram Deshmukh (APP-IND-2026-019)
Report ID: rep-run-deshmukh-discrepancy-1-mw8uhmfe | Status: ACTIVE | Exported: 2026-11-09T05:53:49.445Z by demo@prooflens.lo
`Run: run-deshmukh-discrepancy-1 (Run #1) | Revision Fingerprint: 2441ba36b8c15003`
`Report SHA-256: 31c40cae1df906ba3ff2681582e4... | Bundle SHA-256: faf6117199983cdb79edd382...`

1. Document Overview & Ingestion Hashes

Case "Altered Salary & Native/Rendered Disagreement — Vikram Deshmukh" (Vikram Deshmukh) — Frozen snapshot for Run #1 (run-deshmukh-discrepancy-1), revision fingerprint 2441ba36b8c15003. Contains 3 submitted document(s) across 3 page(s).

- `Loan_Application_Deshmukh.pdf [application, 1p, native-pdf] — SHA-256: 530e9be739a71413cf8d43f5f855ec31178f34bc17d370d071bf5a862e628fb2`
- `Salary_Slip_Aug2026_Deshmukh.pdf [salary-slip, 1p, searchable-scan-ocr] — SHA-256: 2378a9fc76f154a525325dfca72c886b6a1f4872313255407338b4afeb0c253d`
- `HDFC_Bank_Statement_Aug2026_Deshmukh.pdf [bank-statement, 1p, native-pdf] — SHA-256: 4343bd0f1af82a8ec2c59344ff830591ba5b9855b14e5bd0b43585c7588b917b`

2. Extracted Information & Claim Semantics

Extracted 19 source-linked field(s) with 19 total revision record(s). Original extracted values are preserved alongside reviewer corrections.

3. Contextual & Financial Analysis (Decimal Arithmetic)

Executed 7 deterministic check(s) using exact base-10 Decimal arithmetic and typed claim alignment (applicant, basis, period, currency, unit).

```

Alternative Explanations Evaluated:

- [fnd-run-deshmukh-discrepancy-1-natren-obs-nat-ren-doc-102a6796-p1-1] Benign OCR misread on scanned document (ruled-out): Ruled out because both layers are clean vector Type1 fonts with an explicit 3 Tr hidden span overlaid by a shifted bold span. — Uncertainty: Requires bank ledger comparison to confirm true disbursed pay.
- [fnd-run-deshmukh-discrepancy-1-payslip-math-doc-102a6796] OCR or extraction misread on Net Pay field (plausible-needs-verification): If the Net Pay value was misread or overwritten on the PDF layer, correcting the field to the verified value resolves the arithmetic check. — Uncertainty: Check visual and bank records before editing.
- [fnd-run-deshmukh-discrepancy-1-bank-mismatch-doc-102a6796] Delayed or split second tranche outside statement (ruled-out): Bank statement covers full month (2026-08-01 to 2026-08-31) with closing balance reconciled; no second payroll tranche present. — Uncertainty: None within submitted statement period.
- [fnd-run-deshmukh-discrepancy-1-bank-mismatch-doc-102a6796] Stated Net Pay field requires reviewer correction (plausible-needs-verification): If the visible payslip Net Pay figure was altered or mis-extracted, correcting it to the verified

value resolves the discrepancy. — Uncertainty: Requires reviewer inspection of source crop.
- [fnd-run-deshmukh-discrepancy-1-vis-obs-vis-drift-doc-102a6796-p1-4] Intentional bold total styling vs. post-export text replacement (plausible-needs-verification): Bold styling on a total line can occur in benign templates, unless accompanied by baseline shift and conflicting hidden text. — Uncertainty: Must be weighed alongside CHK-02 and CHK-05.

Scoped Negative Evidence:
- No incomplete-window negative searches recorded in this run.

4. Visual & Text-Layer Forensic Findings

Recorded 2 visual/text-layer observation(s). Note: Trained MobileNetV3 region classifier is not attached in this runtime; findings reflect deterministic native PDF property checks and raster signal baselines.

• [Salary_Slip_Aug2026_Deshmukh.pdf p.1 [0.34, 0.34]] PDF Text-Layer vs. Visible Render Cross-Check (text-layer-diff-v1.2) — Native hidden span: "INR 68,000.00" vs. Visible rendered text: "INR 1,12,000.00" (Signal: 0.94) | Limits: Neither the hidden PDF text span nor the visible rendered text is automatically ground truth; requires independent cross-document verification.
• [Salary_Slip_Aug2026_Deshmukh.pdf p.1 [0.34, 0.34]] Native Typography & Baseline Consistency Inspector (font-baseline-v1.1) — Font sans-serif (11.5pt), baseline delta 3.1pt on "INR 1,12,000.00" (Signal: 0.92) | Limits: Typography or baseline variation alone is not proof of tampering (e.g. emphasis styling or export quirks); must be evaluated alongside contextual and text-layer checks.

5. Evidence & Traceability Index

Traceability index linking 3 provenance assertion(s), 0 bounded agent trace(s), and 0 reviewer action(s).

• Provenance: Loan_Application_Deshmukh.pdf <-> Salary_Slip_Aug2026_Deshmukh.pdf: unknown — Distinct file SHA-256 hashes and distinct PDF producers; no external acquisition chain record attached.
• Provenance: Loan_Application_Deshmukh.pdf <-> HDFC_Bank_Statement_Aug2026_Deshmukh.pdf: unknown — Distinct file SHA-256 hashes and distinct PDF producers; no external acquisition chain record attached.
• Provenance: Salary_Slip_Aug2026_Deshmukh.pdf <-> HDFC_Bank_Statement_Aug2026_Deshmukh.pdf: unknown — Distinct file SHA-256 hashes and distinct PDF producers; no external acquisition chain record attached.
• Bounded Agent Trace: No bounded agent follow-up runs executed on this snapshot yet.
• Reviewer Action: No manual reviewer dispositions or corrections recorded yet.

6. Investigation Summary, Coverage & Limitations

Summary of 4 finding(s): 3 discrepancy, 1 possible-explanation, 0 insufficient-evidence, 0 consistent-within-check.

```
Coverage Matrix: CHK-01: applicable/completed -> consistent-within-check | CHK-02: applicable/completed
-> discrepancy | CHK-03: applicable/completed -> discrepancy | CHK-04: applicable/completed ->
consistent-within-check | CHK-05: applicable/completed -> discrepancy | CHK-06: applicable/completed ->
possible-explanation | CHK-07: applicable/completed -> consistent-within-check
```

Uninspected Regions:
- Loan_Application_Deshmukh.pdf p.1 [0.05, 0.94, 0.90, 0.04]: Running page footer margin excluded from financial/claim field extraction
- Salary_Slip_Aug2026_Deshmukh.pdf p.1 [0.05, 0.94, 0.90, 0.04]: Running page footer margin excluded from financial/claim field extraction
- HDFC_Bank_Statement_Aug2026_Deshmukh.pdf p.1 [0.05, 0.94, 0.90, 0.04]: Running page footer margin excluded from financial/claim field extraction

Explicit Investigation Boundaries & Non-Certification Notice:
- ProofLens is an evidence-driven investigation workspace; it does not certify document authenticity, establish legal fraud, or contact external issuers.
- SHA-256 digests validate post-ingestion byte integrity only.
- A green completed check indicates consistency within its stated parameters and submitted pages, never blanket authenticity.

7. Validated Findings & Dispositions Register (4 Exported)

Summary: 4 of 4 finding(s) included (0 reviewer-validated, 0 system-consistent, 3 discrepancy, 1 possible-explanation, 0

insufficient-evidence).

• [fnd-run-deshmukh-discrepancy-1-natren-obs-nat-ren-doc-102a6796-p1-1 | chk-run-deshmukh-discrepancy-1-02] Native PDF Text vs. Visible Render Disagreement (Salary_Slip_Aug2026_Deshmukh.pdf) — Outcome: DISCREPANCY | Validation: open-unreviewed | Disposition: open

Summary: Visible rendered region shows "INR 1,12,000.00" while underlying PDF native text stream contains "INR 68,000.00".

Uncertainty: Text-layer disagreement shows two conflicting representations in the same PDF coordinate region; neither branch alone proves which figure reflects actual payroll.

Source Evidence Coordinates: Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Primary Source Region)

• [fnd-run-deshmukh-discrepancy-1-payslip-math-doc-102a6796 | chk-run-deshmukh-discrepancy-1-03] Payslip Internal Arithmetic Discrepancy (Salary_Slip_Aug2026_Deshmukh.pdf) — Outcome: DISCREPANCY | Validation: open-unreviewed | Disposition: open

Summary: Stated Net Pay (INR 1,12,000.00) differs by +INR 44,000.00 from Gross Pay (INR 85,000.00) minus Deductions (INR 17,000.00) = INR 68,000.00.

Uncertainty: Arithmetic discrepancy indicates either an altered Net Pay figure, an unitemized allowance/bonus omitted from the payslip table, or an OCR/extraction error.

Source Evidence Coordinates: Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Primary Source Region); Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Secondary Compare Region)

• [fnd-run-deshmukh-discrepancy-1-bank-mismatch-doc-102a6796 | chk-run-deshmukh-discrepancy-1-05] Payslip Net Pay Disagrees with Bank Payroll Deposit (2026-08) — Outcome: DISCREPANCY | Validation: open-unreviewed | Disposition: open

Summary: Payslip states Net Pay INR 1,12,000.00, whereas the covering bank statement shows an employer payroll credit of INR 68,000.00 on 2026-08-31 (delta -INR 44,000.00).

Uncertainty: Cross-document discrepancy identifies an unexplained gap between stated payslip net pay and deposited bank credit. Check native text layer and visual observations before concluding.

Source Evidence Coordinates: Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Primary Source Region); HDFC_Bank_Statement_Aug2026_Deshmukh.pdf p.1 (Secondary Compare Region)

• [fnd-run-deshmukh-discrepancy-1-vis-obs-vis-drift-doc-102a6796-p1-4 | chk-run-deshmukh-discrepancy-1-06] Visual Typography & Baseline Drift Observed (Salary_Slip_Aug2026_Deshmukh.pdf) — Outcome: POSSIBLE-EXPLANATION | Validation: open-unreviewed | Disposition: open

Summary: Font sans-serif (11.5pt), baseline delta 3.1pt on "INR 1,12,000.00". Baseline: Sibling value rows use monospace (10pt) with median baseline delta 0.0pt.

Uncertainty: Typography or baseline variation alone is not proof of tampering (e.g. emphasis styling or export quirks); must be evaluated alongside contextual and text-layer checks.

Source Evidence Coordinates: Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Primary Source Region); Salary_Slip_Aug2026_Deshmukh.pdf p.1 (Secondary Compare Region)
